Resource Training & Solutions has partnered with SafeSchools to bring you their award-winning online MSDS management system for schools at a special price!

Constantly updating your chemical inventory and MSDS binders can be quite a daunting task, but one that must be done regularly to ensure the safety of your staff and students. SafeSchools MSDS organizes, updates, and stores your district's chemical inventory lists and MSDSs into virtual binders. Each virtual binder is stored in a "Facility Tree" which further organizes your chemical inventory by work area. And, you can easily print out physical binders with just a few clicks.

Save Time

- Easily create, store and update virtual MSDS binders for your entire district.
- Search our repository of chemicals and MSDSs commonly found in schools to seamlessly create your virtual binders.
- A "Facility Tree" structure lets you organize your chemical inventory and binders by work area.
- Then easily print out virtual binders as neatly organized physical MSDS binders.

Save Lives

- Provide your staff with remote access to your district's MSDS binders from any computer with Internet access.
- Quickly find a specific MSDS with our powerful search and retrieve tool in case of an emergency.

SafeSchools MSDS will help you protect your entire school community with a well-organized and easily accessible online MSDS system!

"Remote access to our MSDS helped us save the life of a student who had ingested a hazardous chemical!"

Kelly Breeding
Director of EHS
Fayette County Schools, KY

"Electronic versions of our MSDS binders make it so easy to update and organize our chemical inventory."

Rob Amodio
Business Manager
Fairfield City Schools, OH
