

zipnosis

A \$25
doctor visit.

Anyone.

Anywhere.

Anytime.

For Employers

Employees start an Evisit (Zip) using a computer or smart phone when it's convenient for them.

They can do a Zip for basic health problems like:

- Colds/Sinus Infection/Strep Throat
- Female Bladder Infection
- Female Yeast Infection
- Canker/Cold Sores
- Allergies/Rx Refill
- Quitting Tobacco
- Acne

They will answer a series of software-guided questions about their health problem. It takes 5-8 minutes and is smart enough to stop the Zip if the patient is really sick.

A Park Nicollet clinician reviews the information. Typical answers to a Zip are:

1. No prescription – just a cold.
2. Prescription
3. Be seen in a clinic

Once Park Nicollet responds, the employee is notified via e-mail or text message that their diagnosis is ready.

Zipnosis is fully HIPAA compliant only allows prescriptions for basic antibiotics.

Your employee gets a response within an hour.

If the clinician issued a prescription, employees can use Google Maps to send it to the most convenient pharmacy.

On smart phones, employees use GPS to select the closest pharmacy and have their Rx sent there.

Doing a "Zip"

- **Reimbursement:** Zipnosis has worked to ensure Zips meet IRS reimbursement requirements for HSA, Flex, Select Account and VEBA plans.
- **Eligibility:** Any MN resident over 18 can sign-up and use Zipnosis, regardless of their health plan.
- **Payment:** Each Zip is \$25 and paid using a credit card (or HSA debit card). Zipnosis does not cover prescription costs.
- **Kids:** Parents can do a Zip for kids 13 and older.
- **Health Data:** Zipnosis users always have a copy of their medical record available to print and take into their regular physician. WE employ the latest security measures to protect health data.
- **Park Nicollet Relationship:** Park Nicollet is the exclusive provider of medical care using Zipnosis for the state of MN. They use qualified, certified clinicians to make the diagnosis and define the treatment options. Park Nicollet is well known for their exceptional medical care – and now it's available to anyone in the state.

Zipnosis is a powerful way to reduce your health care costs and improve employee access to medical care.
