1

Create an Account

Sign-up at: www.zipnosis.com/signup

2

Start your Zip

You'll enter your credit card at the beginning of the Zip. Then you'll pick the medical reason for your Zip and begin answering a series of questions about your condition. It will only take 5-8 minutes.

3

Clinician makes a Diagnosis

A Park Nicollet clinician will then review your information and make a diagnosis and treatment plan for you.

Your answer will likely be:

1. **It's viral** (*good thing you didn't waste time going to the doctor!*)
2. **Here's a prescription** (*only basic antibiotics allowed*)
3. **Be seen in a clinic** (*now you know it's worth the time and money*)

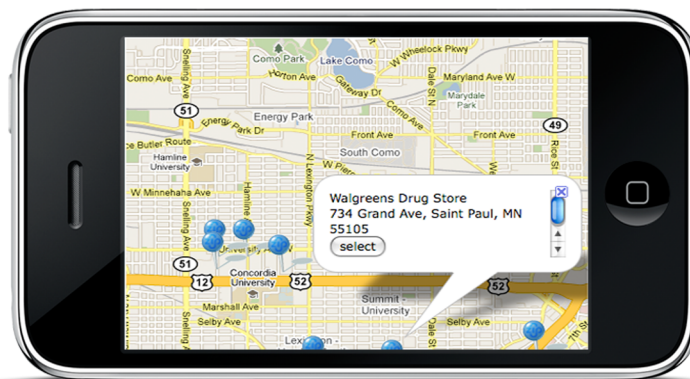

You should have your diagnosis in less than 1 hr.

4

Review your Diagnosis

You'll get an e-mail or text message when your diagnosis is ready. Login in and review the diagnosis. If you get a prescription, you will use Google Maps to choose your pharmacy.
